- Your device is fragile, you need to look after it so it will last.
- Your device is worth a lot of money to a thief so keep it in a secure place out of sight or take it with you.
- Record your device's serial number and keep it in safe place. The serial number will be required to identify your device, confirm warranty and insurance.
- Label your device to identify it as yours. If your device is easy to identify it makes it less desirable to someone else.
- Keep your device away from water, moisture or steam. Don't take your device to the beach or a pool. Don't leave it outside or in the sun for too long. If your device gets wet, moist, too cold, too hot or infested by insects it may cause a short circuit that will damage your device.

The accidental damage, loss or theft is a sudden and unforeseen event (insured event) not caused by your intentional action or the action of anyone acting on your behalf.

If the insured event happens and you have complied with the Master Policy, we will either repair or replace your device.

The most we will pay for the total of all claims under this Master Policy is the original purchase price of your device. We will only pay for one device replacement or the repairs, which do not exceed the original purchase price of your device. If your device was replaced, you have to purchase new insurance for the replacement device.

### **WHAT YOU ARE NOT INSURED FOR**
